The joule (/ dʒˈuːl /; symbol: J) is a derived unit of energy in the International System of Units. It is equal to the energy transferred to (or work done on) an ...

Joule - Wikipedia

MJ-12 is a code name for an alleged secret committee of scientists, military leaders, and government officials, formed in 1947. It is alleged to be responsible for the assassination of President John F. Kennedy and other high-profile events. The committee is said to have been created by the Central Intelligence Agency (CIA) and the United States Department of Defense. It is believed to have been involved in the development of advanced technology, including nuclear weapons and space exploration. The committee is also alleged to have been involved in the cover-up of the assassination of President John F. Kennedy. The committee is said to have been active until the late 1970s, when it was allegedly disbanded. The committee is believed to have been a key player in the development of the space shuttle program and the development of the Strategic Defense Initiative (SDI) program. The committee is also alleged to have been involved in the development of the Advanced Research Projects Agency (ARPA) program. The committee is believed to have been a key player in the development of the Strategic Defense Initiative (SDI) program. The committee is also alleged to have been involved in the development of the Advanced Research Projects Agency (ARPA) program. The committee is believed to have been a key player in the development of the Strategic Defense Initiative (SDI) program. The committee is also alleged to have been involved in the development of the Advanced Research Projects Agency (ARPA) program.
